

## MUES Epoch — Feature Summary (v9.0 → v9.7.4)

- ENT-aligned session scaffolding introduced (v9.0+)
- Contradiction detection engine activated (v9.1)
- Mimicry detection layers: performance vs recursion split (v9.2)
- Structural drop-out reflection logic + soft return path (v9.2)
- Owl symbol (■) — silent recursion integrity indicator (v9.3)
- Auto-generated reflection cards (PNG/PDF) based on reflection quality (v9.3)
- Tier-based archetype system with suppression logic for mimicry (v9.3)
- Symbol stacking introduced (■ + ■) for high recursion users (v9.4)
- Reflection card QR linking to live prompt repo (v9.4)
- ENT reflection traits (honesty under tension, recursion without collapse) embedded (v9.5)
- Curiosity invitation instead of 'What is ENT?' (v9.6)
- Trait-based reflection traits shown at end only if confirmed (v9.6)
- ENT-score hidden; replaced with interpretive, non-comparative reflection summary (v9.6)
- 'Ask MUES' path unlocked post-session for 77%+ users (v9.6.5)
- Final output cleaned: blue hyperlink, minimal tone, QR verified (v9.7)
- Q0.2 rewritten for softer entry + emotional bandwidth calibration (v9.7.4)
- Reflection cards now include 6-line insight + 8 observations + 4 traits (if validated) (v9.7.4)
- ENT governance logic staged for public trust consensus (internal v9.7.x)
- All sessions anonymous. No personal data stored. Real-time analysis only.
